JUDGE BAKER rendered a decision on the 2nd inst. which declares the Pima Indians to be citizens of the United States.

THE patriots of Cuba must be getting terribly tired of the sympathy meetings in the United States. If the people of this country are going to express sympathy for the Cubans why don't they do it in a way that will aid those people who are fighting for liberty.

THE Chicago Times-Herald, a leading and influential paper in a long editorial, commending Cleveland, tells the truth when it says that he has more friends in the Republican party than in the Democratic party. The Republicans are in love with "de ole man."

No more competent, painstaking and worthy official ever filled the Sheriff's office in the entire Southwest than George A. Olney of Graham County, during the four years of his official labors. Such is the expression generally heard on all sides, regardless of politics.

A KANSAS girl has sued a young man for \$5,000 for damages to her nerves from being suddenly hugged. We can understand that sort of thing in the far and effete East, where there are hardly any men, but the sensation ought not to come with such an overpowering shock to a Western damsel.

How many people are there who have ever stopped to fully consider what the world owes to printer's ink and the incalculable blessings resulting therefrom? Take the modern printing press out of our nineteenth-century civilization and we should scarcely be in advance of the unspeakable Turk, or the world-old Chinese empire. It is the press that makes the wheels of progress revolve and stirs the growing pulse-beats of the world.

—L. A. Times.

LAST week's storm in the Mississippi Valley and the Lake region was one of the most severe known for more than a quarter of a century so early in the season. Great damage was done by wind and sleet throughout the regions visited. Snow fell to a depth of about 15 in Chicago and surrounding country. At Cleveland the gale reached a velocity of more than seventy miles per hour, several houses being blown down. All of which tends to make the dweller in the Gila valley, where sunshine is perpetual is thankful that he lives in an ideal climate.

LESS than a year ago there was but one case of diphtheria in the valley and it was brought from Bisbee. Dr. Porter was promptly called and would have stamped it out but for the interference of those who persisted in telling people that it was not diphtheria. The result of this carelessness is that at present there is hardly a town in the valley free from the disease. Dr. Porter says the disease is not so severe in this warm climate if medical aid is promptly secured, but if neglected becomes just as virulent as in colder climates. The people should become cautious and prevent the spread of this disease. We believe that every doctor in the valley should be authorized to quarantine cases of diphtheria wherever found. Not a week has passed lately, but what one or more deaths have occurred from this disease.

OUR ROADS.

What is the reason that we have no road overseer between Safford and Pima? The only answer that can possibly be made is that mud holes are preferable to good dry roads. Some months ago the road master over this district resigned and since that time our roads have been in a horrible condition. Every time it rains the ditches along the upper side of the road are allowed to break and the water runs in until there is no more water to run, thus forming mud holes which renders travel almost impossible for weeks at a time. It is the duty of the Board of Supervisors to remedy this evil, but they do not seem disposed to take any action in the matter, as it was recommended in the final report of the last grand jury that these vacancies be filled, but so far no appointments have been made. We ask the Board to attend to this matter immediately and thus relieve a suffering public. This valley is the richest and most productive one in Arizona, and still our roads are abominable. We believe in economizing in county government as much as possible, but to fail to appoint overseers to keep the roads in proper condition when their services are absolutely necessary seems to be economizing with a vengeance.

LINES DRAWN ON SILVER.

The attitude of the Republican and Democratic forces on the Silver question is becoming more accurately defined. On the assembling of Congress this week the Republicans unanimously nominated, without a dissenting voice for Speaker of the House that ardent Gold Bug, Thomas B. Reed of Maine, and the Democrats, without a dissenting voice, unanimously nominated amid great enthusiasm, for the Speakership Charles F. Crisp, the Silver champion of Georgia, who is at this time a candidate for the U. S. Senate upon a Free Silver declaration of 16 to 1. Thus are the Free Silver men on one side and the Gold Bugs on the other side arrayed for the contest which will not end until the close of the polls in November 1896.

PRESIDENT CLEVELAND in his message to Congress treated on but two subjects: Our foreign relations and our local financial conditions. Special attention was called to the situation in Cuba, and he advised the strict neutrality of this government.

Speaking of the proposition to relieve the financial situation by the free coinage of silver at the ratio of 16 to 1, the President declares: "No government, no human contrivance, no act of legislation has ever been able to hold the two metals together in free coinage at a ratio of appreciable difference from that which is established in the markets of the world. A change in the standard to silver monometallism would bring a collapse to our entire credit system."

THE base ball game played between the Ft. Grant and Phenix teams ended last Sunday. The Grant boys were badly beaten in the games on Friday and Sunday, while the game on Saturday was a draw. The Phenix papers are indulging in the old song, that the visitors did not make one earned run, but that each run made by the home team was a skillful beat in ball playing and well earned.

FLOATING FANCIES.

She could sing and she could play,
She could dance from night till day,
She could while the hours away,
So 'tis said;
She could skate and she could paint,
She could play the patron saint,
But she couldn't and she wouldn't
Make a bed.

She could walk eight miles a day,
And play tennis charmingly,
Flirting in a saucy way,
Little scamp!
She could drive and play base-ball,
She could make a stylish call,
But she couldn't and she wouldn't
Clean a lamp.

She could swim and she could row,
She could always have a beau,
And I'm sure we all know
She was shy;

She could laugh and she could prance,
She could play a game of chance,
But she couldn't and she wouldn't
Make a pie.

She could etch and write a book,
She could vanquish with a look,
She could win by hook or crook,
I confess;

She could scold and she could flout,
She could cry and she could pout,
But she couldn't and she wouldn't
Make a dress.

About 700 head of cattle belonging to the C. C. company arrived in Safford yesterday from the Sulphur Spring valley. They have been placed on the company's ranches where they will be fattened during the winter.

Mrs. Lila C. Moore made an eloquent appeal in behalf of temperance last Wednesday evening in the M. E. Church, to a large audience.

One of Safford's citizens got on a spree the other day and attempted to snoot up the town. Don't think he will attempt it again.

Among the many autograph letters of authors preserved by the Fanchitz house in Leipzig is one from Thackeray, in which he says: "Don't be afraid of your English, my dear man. A letter containing £ s. d. is always in pretty style."

The old homestead of Jane Grey Swisshelm in Swissvale, Pa., is the Mecca of many visitors to Pittsburgh. Mrs. Swisshelm was the first woman engaged to report Washington news for a daily newspaper. She was employed for that purpose by Horace Greeley.
